Greetings,

As a highly skilled Big Data Engineer with interest, I am writing in regards to apply for Software Engineer(Bigdata) opportunity in your organization and I am certain I would make a valuable addition to your organization.

I am proficient of design and develop applications on Open-source platforms and frameworks like Apache Hadoop and Spark using Java and/or Scala as programming language. In addition to my experience and personal qualities, I am passionate about developing maintainable applications by industry best practices. My coding skillset coupled with a base in algorithms, enables me to think multilaterally in various aspects of application development. I believe that on the back of my analytic, creative and logical thought process, learning the syntax and other specifics of such technologies and programming paradigms is almost a matter of no time.

Please review my attached resume and StackOverflow profile for additional details regarding my expertise and career achievements. I am glad to discuss with you how my experience and background meet your needs.

Thank you for your time and consideration.

Sincerely,

Srinivas Reddy Alluri
